Dear Friends,

After 11 years at the head of the club's activities, including two long and difficult seasons due to the Covid-19, plus an end of the 2021 season complicated by Jean Charles' work accident at the beginning of August, Christian has decided to give up his duties as chief pilot to find some peace and quiet. We have made sure that the ending of his job will allow him to leave in good conditions via a favourable contract termination scheme.

We wish him all the best for the future, and we thank him for his long years of service to the CVVMC.

He has been one of the main driving forces of the club, making sure that the aircraft and equipment are always in excellent condition. He has never stopped improving them during maintenance sessions, just as he has done excellent work by creating procedures to ensure the safety of everyone in flight and on the ground. And his achievements do not stop there...

Once again, we thank him for all that he has brought to the club, and we hope to see him often with his Petit Salto to enjoy the beautiful conditions of the Southern Alps.

The CVVMC Executive Board
